## Equity, Diversity, and Inclusion

### UWinnipeg accessibility advocate wins national award

UWinnipeg's accessibility advocate, Sarah Adams, has been named the 2023 National Accessibility Advocate Award winner by the National Human Rights Commission (NHCC) on May 25, 2023. The award recognizes her exceptional leadership and commitment to accessibility across the university. Sarah Adams is the Accessibility Coordinator at the University of Winnipeg. She has been instrumental in implementing accessibility measures across the university, ensuring that all students and staff have equal access to university resources and services. Her work has been instrumental in making the University of Winnipeg a more inclusive and accessible institution. She has been instrumental in implementing accessibility measures across the university, ensuring that all students and staff have equal access to university resources and services.

### New blood test in cancer research could save lives

Cancer is the leading cause of death in the United States. However, early detection can significantly improve survival rates. A new blood test is being developed that could detect cancer at an earlier stage, potentially saving lives.

UW-Madison researchers are leading the development of this new blood test. The test is designed to detect cancer at an earlier stage, potentially saving lives. The researchers are currently testing the test in a clinical trial.

The test is being developed by the University of Wisconsin-Madison. The test is designed to detect cancer at an earlier stage, potentially saving lives. The researchers are currently testing the test in a clinical trial. A total of \$65,000 has been allocated for the research.

### External Research Funding 2019-2024

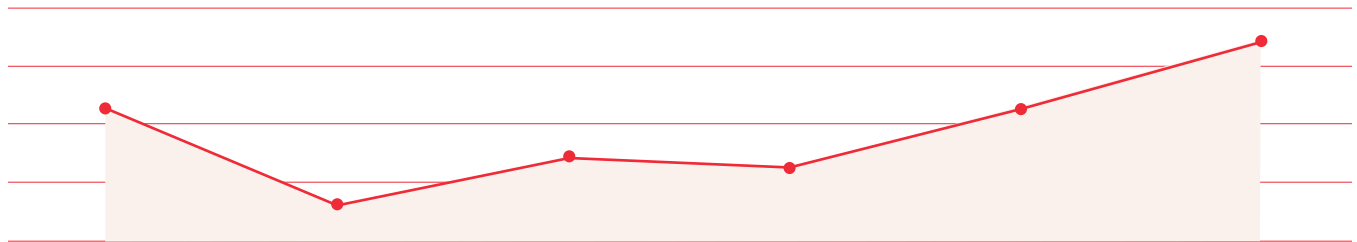

## Remote Research award powers trip to Flin Flon

A dedicated award of research funding will be made available to researchers to support their work in the field of remote research.
