# Clearing Misfeeds and Maintenance

# Clearing Misfeeds- Logged In

# Misfeeds

Follow

# Misfeeds

Section Y

Sections B and C

Always remove the misfed paper in the same direction as the feed rollers.  
Do not pull sideways as the paper will tear and the rollers will wear.

# Misfeeds

Section D

Section Z (Duplex unit), located inside the right panel

# Misfeeds - Finisher

Section R  
(1000-sheet finisher)

Misfeed areas in Finisher **SR3140**

# Misfeeds - Finisher

Section R (1000-sheet finisher + Booklets)

Misfeed areas in Finisher **SR3150**

# Misfeeds – Document Feeder

Section P

C4504-6004 : Push the grey latch to access the paper from the inside

# Maintenance – Document Feeder

Cleaning the glass: a cloth is supplied with your unit

Please clean the scan glass and exposure glass frequently, or when you notice lines or spots on your copies

# Document Feeder

The 3 sensors on the feed table should not be blocked by paper, etc. It will result in undesired paper size output, or the unit will keep indicating to load special paper size in the tray

Document Feeder Sensors

Remove the blue cleaning wand from its slot in the front panel

At an angle, slide it in and out, a few times, in each of the 4 color slots. This should be done every 2 months, to prevent dust build-up on the slit glass, which causes the laser to
