	<p>to be taking info that may be currently available</p> <p>Lots of uncertainty about if/when we will return to campus. We've been told and messages will be informed by the public health orders, which we are awaiting. Drith has the answer just yet but will work towards some sort of communication on the topic.</p> <p>Great support for Safety & Health with all that is going on. Has seen some efforts to best communicate things - lots of good work being done across campus - anyone welcome to reach out to KM. Michael will have concerns.</p> <p>Proposed collaboration to better facilitate communication between UWSA, Dyca, RBE, and MFE, given the community activity and increased foot traffic occurring in proximity to all three locations. There are by bus stop is an ongoing safety concern.</p> <p>CV will share training opportunities from non-eshiptos and what would be valuable for the work we do. Tim Mias Buchad likely to attend training on behalf of PSAC.</p> <p>Worthful to be getting training for this committee specifically but would like to see the addition of a risk management or crisis management training as well.</p> <p>Thanks to WCA and the Administration for the quick response to the incident at the dyca. Agendas posted will include days of the request - this was most appreciated. Supports are being provided to the employee, including mental health supports.</p> <p>UWSA is looking into a public washroom option for the area described above, which is experiencing the community activity impacts. This is seen as one of the primary reasons people are seeing a need to return to the building.</p> <p>JGdyBos will see if she can obtain a violation with the certified electrician record with</p> <p>include a section on how to promote psychological safety.
